Topics 2021

**SPACE AS
AN ACCELERATOR
TO ADDRESS
SOCIETAL NEEDS**

RESILIENCE

CLIMATE

**ASSETS
PROTECTION**

FINANCE

Why are we interested in the eco-space market?

Exhibitions are economic and social boosters

Lazio: one of the most important and flowering space districts in Italy, a great and fundamental economic resource for the territory

The great opportunities of an event like NSE come from the continuous confrontation with the economic operators

The yearly appointment with **NSE EXPOFORUM returns in 2021**.

Knowledge exchange, business opportunities and successful marketing return, thanks to the use of a totally **digital framework** that will make the participation easier and more effective for the space professionals.

Exhibitors, products and **contacts** are presented in multimedia areas, easily addressed in a menu with the well-known filter and selection options.

High level interaction is reached with **interviews and meetings** via video call or chat.

Presentations, expert talks, panel discussions, press conferences, webinars, and other features are part of NSE 2021 agenda.

Matchmaking session will be held on **December 9-11**, you too can participate.

The plenary sessions, which form an important section of NSE content, are completely free, no ticket required, easily accessed through the event agenda.

By registering as “registrant” or “exhibitor” you will have the opportunity to access **web conferences**, visit **virtual booths**, attend **video calls** and **streaming sessions**, all integrated within a unique platform.
